

# UNITRON®

## **COMPACT AND HIGH RESOLUTION 60MM SPOTTING SCOPE AND TELEPHOTO LENS**

The Unitron 60mm Spotting Scopes are compact, high resolution general-purpose scopes featuring internal focusing, fully coated optics and advanced design to give you the clearest and brightest images. The air-spaced objectives feature wide fields of view clearly and sharply focused and free from distortion. Images are erect and non-reversed.

The Unitron 60mm Spotting Scopes are indispensable for nature study, bird watching, target shooting, surveillance, etc. They easily convert to telephoto lenses with the 25X eyepiece, photo tube and appropriate T-mount.
